

SERENO

FORT LAUDERDALE

## Adorned with Beauty, Framed by Nature.

Rising between the Intracoastal Waterway and the Atlantic Ocean in Fort Lauderdale, Sereno enchants in an instant with all-glass, curving architecture, panoramic park and water views, and airy residences that open to private terraces. Resort-inspired indoor and outdoor amenities complement the artfully crafted lifestyle of this unique boutique condominium.

# Every Detail, a Work of Art.

Surrounded by lush landscaping, the building's striking all-glass design, blurs the boundaries between indoor and outdoor living. From every angle, breathtaking panoramic views unfold—capturing the shimmering ocean, the tranquil Intracoastal Waterway, and the natural beauty of Hugh Taylor Birch State Park and Bonnet House Museum & Gardens.

All square footages and dimensions, including (without limitation) ceiling heights, are estimates based on preliminary plans and will vary with actual construction. All floor plans, specifications and other development plans are proposed and conceptual only and are subject to change and will not necessarily accurately reflect the final plans and specifications. Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and outside corridor wall, and the centerline of interior demising walls between units and in fact vary from the square footages and dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration, which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements or shared facilities. The method of measurement used herein is generally found in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. For your reference, the dimensions of the Unit determined as set forth in the Declaration, are set forth in Exhibit "2" to the Declaration of Condominium. Measurements of rooms set forth on this floor plan are generally taken at the farthest points of each given room (as described above and as if the room were a perfect rectangle), without regard for any cutouts,
